VOLUME CONTENTS

1994 NUMBER 1

A. F. Bondarenko, A. N. Komarov, A. M. Mashanskii and M. G. Portnoi	1	Frequency and tie-line power control with parallel operation of the power systems of Russia and Eastern and Western Europe
G. N. Aleksandrov and G. A. Yevdokunin	13	The use of suspended metal oxide arresters for phase-to-earth and phase-to-phase overvoltages
A. A. Afanas'yev and A. N. Vorob'yev	25	Analysis of the magnetic field of a magneto-electric self-controlled motor by the method of conjugation of conformal representation
A. M. Danichev and A. I. Kas'yanov	43	Synthesis of wave filters with switched capacitors
O. I. Kazakov	51	Identification of the matrix of state equations using state variable vector values
O. M. Byalik, A. N. Donii and V. Yu. Alekseyev	57	Simulating thermal-noise inductive converters for measuring the temperatures of metals
V. V. Bazutkin, G. A. Yevdokunin and F. Kh. Khalilov	63	Limitation of surges due to inductive switching by vacuum circuit breakers
S. I. Palamarchuk	73	Determination of available reactive power for generating busbars
A. V. Orlov and V. S. Petukhov	81	Determination of cloud electrical structure by the single-value decomposition method
V. G. Dubovoi, V. Ye. Polyakov, V. S. Chernenko and Ye. G. Shteinfer	91	Situation-based logical control of switching in high-voltage switchgear systems
Ye. Ye. Chaplygin and Z. V. Bruyakina	101	Microprocessor rectifier control system with parametric feedback
A. S. Lebedev and Khoder Issa	111	Calculation of field forcing in a two-zone direct current drive
R. Ye. Yershov	117	$B(H)$ curves for alternating magnetization of ferromagnetic materials
L. G. Mamikonyants and Yu. G. Shakaryan	129	Developments in the field of asynchronized synchronous generators
G. S. Yasakov, V. I. Finagin and M. V. Tret'yak	143	Simulation of transient conditions in autonomous electrical power systems with current limiting devices
E. L. Zlobinskii and A. P. Savin	163	Calculation of the electrodynamic shifting force in transformer windings
S. V. Vendin	169	Investigation of the electrical field intensity in seed during UHF-disinfestation
A. V. Ivanov, M. S. Lizunova and A. M. Gas'kov	179	Glass–enamel barrier ageing affected by electrical discharges in ozonizers
	i	List of papers not translated from *Elektrichestvo* Nos 1–3 1994

1994 NUMBER 2

Quyen Huy Anh	1	The application of pattern recognition methods for fast analysis of the dynamic stability of electrical power systems
Ye. V. Smirnova, V. I. Filatov and V. K. Fokin	15	An electronic synchronoscope for imaging alternating current electrical network operating conditions
V. O. Golovshchikov and V. P. Kychakov	23	Investigation of shock loads in electrical power systems with a digital-analogue-physical complex
M. B. Babayev and A. N. Golubev	31	Simulation of electromagnetic processes in a six-phase induction motor with a split coil
A. A. Martynov and V. V. Khrushchev	39	The inductive reactance of a rotating magnetic field multiphase transformer with yoke magnetization
Yu. P. Goryunov and S. V. Smolovik	49	More precise definitions of "complex admittance" and "complex power"
A. F. Bondarenko and A. N. Komarov	69	Control of power flow and frequency in electrical power systems
A. L. Pinegin and A. A. Ragozin	87	Operating conditions of a synchronous wind power generator in a power system
A. I. Tamazov	97	Probability method for analysing corona effects
V. N. Tarasov	109	Conditions for efficient overexcitation of a hysteresis motor
M. M. Yerikhov	121	Determination of the power constancy factor in non-sinusoidal current circuits
M. A. Biki, Ye. N. Brodovoi, A. M. Bryantsev, Yu. L. Chizhevskii, L. V. Leites and A. I. Lur'e	127	Electromagnetic processes in high-power controlled reactors
L. K. Kovalev, K. V. Ilyushin, V. T. Penkin and K. L. Kovalev	145	Hysteresis electrical machines with high-temperature superconducting rotors
A. A. Stavinskii and S. V. Shirinskii	171	Analysis of the cores of induction motors with stators made from cut laminations
I. A. Zborovskii	183	Analysis of rectifier converters connected in two opposed stars
	i	List of papers not translated from *Elektrichestvo* Nos 4–6 1994

1994 NUMBER 3

I. G. Kirin	1	Photovoltaic transformers for power take-off
V. F. Bykadorov	11	Power relationships associated with the discharge of a capacitive energy storage on a faulty cable line

A. D. Roninson	19	Analysis of magnetostatic and electrostatic problems of polarized shells
O. S. Gefle, A. V. Demin, V. R. Kukhta, S. M. Lebedev, V. V. Lopatin and **M. D. Noskov**	43	Discharge development in layered dielectrics
M. A. Aronov and **M. P. Kokurkin**	49	Energy characteristics of polymer insulation dielectric strength under partial discharge stress
Tcan Ky Phuc	63	Spread of charges deposited on the surface of gas inclusions in high-voltage solid dielectrics
I. V. Yermilov	69	Kinetic theory of the dielectric strength of solid dielectrics
A. A. Afanas'yev and **A. N. Vorob'yev**	89	Analysis of the magnetic field of a rectifier-type motor with a non-uniformly magnetized rotor
	i	List of papers not translated from *Elektrichestvo* Nos 7–9 1994

1994 NUMBER 4

N. S. Gurov and **V. N. Chuvychin**	1	Methods for improving the quality of control of electrical power systems during underfrequency emergency conditions
N. G. Shirokov and **S. I. Kutuzov**	9	A method for reducing the level of higher harmonics in an autonomous power system
Ye. I. Yefimenko	17	A new approach to the analysis of electrical machines with electromagnetic speed reduction
A. I. Inkin and **V. A. Tropin**	27	An approach to the design of equivalent circuits for the rotor–air gap boundary layer of a rotating induction machine
Sh. N. Khusainov	39	Application of the principal variables method for the development of characteristic equations
El-Halabi Gazi	45	Calculation of the end-winding leakage reactance of a three-phase ring winding with an arbitrary form of coil cross-section
M. Ye. Gol'dshtein, R. V. Gaisarov and **I. Ye. Klingen**	53	Mathematical model of the influence of current-carrying parts of a power converter on the current distribution between its branches
S. M. Lebedev, L. I. Leshchenko and **O. S. Gefle**	63	Elastomeric materials with a non-linear current–voltage characteristic for high-voltage cables
V. A. Khomyak and **D. Raining**	69	Measurement of the power factor of three-phase unbalanced loads
Yu. I. Galaktionov,✠ N. V. Goncharyuk, Ye. K. Lokhanin and **T. G. Filenko**	75	Mathematical model for constructing a power system equivalent circuit for calculation of steady-state and transient conditions
V. L. Galka and **K. B. Shchiglovskii**	87	Estimation of electrostatic field parameters associated with oil tanker operations
A. S. Kurbasov	99	Parameters of reluctance motors
	i	List of papers not translated from *Elektrichestvo* Nos 10–12, 1994
	iii	Volume Contents/Author Index for Volume 1994
